

### Lyric Consent Form

Patient Name: \_\_\_\_\_

I have been given information about my hearing condition and consent is hereby voluntarily given for Lyric Extended Wear Fitting and Sizing.

I confirm the Lyric Extended Wear Fitting & Sizing procedure, alternatives to the Lyric and potential gains and risks of wearing a Lyric hearing device have been explained to my satisfaction by the hearing professional staff. I have also been provided and have reviewed the Lyric user manual and my questions about the Lyric device have been answered by the hearing professional staff.

Risks and warning associated with the fitting, sizing and use of the Lyric:

- \* Lyric extended wear fitting and sizing risks are rare and include abrasion, discomfort, soreness, bleeding, infection & pain.
- \* Do not submerge your head in water while wearing Lyric. Water submersion may cause damage or early failure to the device.
- \* Do not scuba dive or dive underwater. Diving while wearing Lyric may cause injury to your ear or damage the device.
- \* Lyric must be removed before you have an MRI because it contains metal parts.
- \* You should not attempt to remove earwax from your ear canal while Lyric is in place. Do not put cotton swabs or anything else in your ear canal. It may injure your ear or damage the device.
- \* If Lyric stops working for any reason, it must be removed within 24 hours and you should return to your Lyric hearing professional for an examination of your ear canal and Lyric refitting.
- \* Lyric does not restore normal hearing and it will not prevent or improve a hearing impairment resulting from organic conditions. In most cases, infrequent use of a hearing device does not permit a user to attain full benefit from it.
- \* Call your Lyric hearing professional immediately, if the device malfunctions, you experience pain beyond initial general discomfort, or if you experience a sudden or significant change in your hearing.
- \* I understand that if I remove the Lyric, the same product cannot be placed back into the ear canal. Only the hearing professional can remove and replace the device.

As with any hearing aid, I have been advised by the Audiologist from ACI Hearing & Balance Center, Inc. that the Food and Drug Administration has determined that my best interest would be serviced if I have a medical evaluation by a licensed physician (preferably a physician who specializes in diseases of the ear) before purchasing a hearing aid and/or Lyric. I do not wish a medical evaluation before purchasing a hearing aid and/or Lyric.

My signature acknowledges full disclosure of its contents and therefore I agree to the terms set forth above.
